

FLOOR DISPLAY STAND MODEL FDS-150

The FDS-150 is designed for Plasma, LCD, Electronic Whiteboard and related applications.

The stylish, all-steel construction with perforated metal in-fill is fully assembled with a wide base that is extremely stable for even the heaviest of Flat Panels.

The solid metal base plate can be through-bolted or screwed to the floor if considered necessary for additional security .

The FDS-150 can be supplied with different mounting frames to suit a variety of flat panel sizes from 19 to 60-inch and with various optional accessories to suit a wide variety of applications. Talk to us about your individual requirements.
